ECE Apprenticeship

The Pathway To Career Success and Sustainability

BECAUSE ECE PROVIDERS ARE MORE THAN JUST PLAYING WITH CHILDREN...

Early Education Career Institute values the work of the early childhood educator and the unique role they have in children's lives. We have curated an apprenticeship program that is registered with the US Department of Labor, that preserves the historic role of the educator in a fun and joyful industry whose paramount responsibility is the care and education of young people.

The course is an Enriched Virtual Course integrated with theory, child development best practices and practical strategies, 840 instructional hours.

Course work is provided using classroom technology, intentional teaching practices, and flipped learning techniques to aid high school students through successful use of online learning tools.

Each program includes Instructor led instruction webinar, live interaction, mock interview, portfolio help and test prep.

Our Hired Apprentices earn a higher industry wage for on-the-job training for over 1400 hours while working in a center based or family childcare program.

Occupations: Instruct preschool-aged students, following curricula or lesson plans, in activities designed to promote social, physical, and intellectual growth.
